CS 399 has no official course outline.

Since it is so variable but yet universally recognized as valid, its course outline has never been specified beyond the "Special Topics" concept and individual syllabi as specified by the instructor (approval required by consensus as to offering).

Previously, offerings were (in chronological order):

1. Neural Networks - Dr. Andrew Noetzel
2. Robotics - Dr. Sati Choudhary
3. Network and Distributed Operating Systems - Dr. John Najarian
4. Computer Ethics - Dr. Lou Gaydosh
5. Computer Game Programming - Dr. John Najarian

Projected future offering: Computer and Network Security
